

MX-SENSORS TS508 TS608 MS906TS MX-TPMS PAD

## LIMITED WARRANTY

Dated sales receipt or invoice must be provided to honor Autel warranty

### STANDARD POLICY

Autel warrants to the original end-user customer that its products are free from defects in material and workmanship for a specified period of time depending on product. Autel, will at its discretion, either repair or replace warranted products. Replaced products will either be new or recertified. All recertified products will be tested to ensure their hardware and software are functionally equivalent to new products. Do not open Autel products. Opening an Autel product may cause damage to the tool that is not covered by this limited warranty. Only Autel should service Autel tools. This limited warranty covers only repair or replacement of Autel products, it does not cover any damages or losses of any kind resulting from use or misuse of product.

The limited warranty covers only device failure. It does not cover any damage to the product (including but not limited to cracked screen, broken case, chemical exposure or liquid damage) as a result of accident, abuse, misuse, natural disaster, insufficient or excessive electrical supply, abnormal mechanical or environmental conditions or unauthorized disassembly, repair or modification. This warranty does not apply to consumable parts, such as batteries or protective coatings that are designed to diminish over time, unless failure has occurred due to a defect in materials or workmanship. This limited warranty shall not apply if the product was not used in accordance with accompanying instructions or intended use. This limited warranty does not apply to any product with an altered or removed original identification number or if Autel receives information from relevant public authorities that the product has been stolen.

There is no service charge if the tool is covered under the limited warranty or if the warranty has been extended under the Autel Total Care Program (TCP). Refer to the Autel MaxiSYS Support page for details on replacement part coverage under initial year warranty and TCP extended warranty. Autel can replace batteries on out-of-warranty tools for a service fee. Contact Autel Technical Support to request a Return Goods Authorization (RGA) number to send the tool for battery replacement.

### SERVICE PROCEDURE

A defective product may be returned to Autel only after obtaining a Return Goods Authorization (RGA) number from Autel. If any customer has questions or believes it necessary to return the tool for repair, contact your local distributor or Autel technical support to obtain an RGA number and instructions to send the tool to an Autel RGA department for service. The end-user is responsible for the cost of insuring and shipping to Autel. Tools must be properly packaged to prevent damage during transit. Autel will cover shipping cost of the repaired or replacement tool with the same delivery speed by which it was sent in to Autel. The Autel RGA number must be prominently displayed on the outside of the package. Shipments received by Autel without the RGA number prominently displayed on the package exterior will be returned unopened. Autel can not guarantee the security of a unit that is shipped without an Autel-issued RGA.

# MX-SENSORS

## PROGRAMMABLE UNIVERSAL TPMS SENSORS

- NEW - Interchangeable valve stems provide a limited 2-SKU inventory
- Built to match or exceed OEM sensors in frequency strength and durability
- 98% OE vehicle coverage / 100% ID clone-able / No relearn required
- MX-Sensors offer latest model vehicle coverage while updating during installation
- Autel MaxiTPMS tools wirelessly activate, diagnose, program, and relearn MX-Sensors

## PRESS RELEASE BUTTON

The exclusive MX-Sensor patented PRESS release valve design, allows rubber and metal valve stems to freely interchange by hand, without a tool for sensor head fitting. The easy to use PRESS release valve design, reduces service time to increase profits.

## QUALITY TESTED

MX-Sensors are made with automotive-grade materials to resist corrosion and severe weather conditions. The durable stainless steel release button assembly, the high-precision air valve prevents leaks and automotive grade battery lasts longer. Autel's MX-Sensor valves are tested independently and certified to meet and exceed the SAE industry standard J1205 / J1206 ratings. OE level signal durability and functionality insures only the highest quality sensors are installed.

# TS508

## ADVANCED TPMS SERVICE TOOL

The Autel MaxiTPMS® TS508 is a new generation complete TPMS diagnostic tool specially designed to activate all TPMS sensors, read TPMS sensor status, check TPMS system health condition, program MX-sensors and conduct TPMS relearn. Based on service type needed, the option to choose a Quick or Advanced TPMS service mode will decrease repair time. The TS508K premium kit includes one tool and 8 MX-Sensors, to offer a perfect solution for quick TPMS service repair.

### EASY & FAST: QUICK MODE

In Quick Mode you can activate and relearn all known sensors, read sensor ID, temperature, and pressure, and read battery power level condition. Sensor programming options include copy by activation, copy by manual input, and the newest option to auto create 1-16 sensors.

### POWERFUL: ADVANCED MODE

Advanced Mode features the same TPMS options as Quick Mode, plus TPMS Status Screen to view system faults, read and clear DTCs from ECU, and sensor position relearn. Sensor programming options include copy by activation, copy by manual input, the newest option to auto create 1-16 sensors, and copy by OBD.

## COMPLETE TPMS & SERVICE TOOL COMBINATION

An industry first combination of complete TPMS and advanced service functions in a 7-inch tablet scan tool, equipped with the newest VCI mini for wireless communication. Complete repair projects faster with comprehensive TPMS, special service and all systems diagnostics in the same android based smooth navigation software as the rest of the MaxiSYS tool line. The MaxiTPMS TS608 provides the highest level of TPMS and service diagnostics setting new standards for service tools.

## THREE TOOLS IN ONE

The innovative TS608 combination service tool provides three mode options from the main screen. This quicker tool navigation decreases repair time by providing easier and faster access to a wider variety of tool features, instead of switching between multiple specialty tools to complete projects.
